ANNEX

Recovery and Resilience Facility

Operational arrangements between the European Commission and Belgium

These operational arrangements enters into force on the signature date between:

- (1) The European Commission, 200, rue de la Loi, B-1049 Bruxelles, Belgium, which is represented for the purpose of the signature of this operational arrangements by Commissioner Paolo Gentiloni;

hereinafter referred to as the “**Commission**”

on the one part,

and

- (2) The Kingdom of Belgium represented by the Secretary of State for the Recovery and Strategic Investments, Thomas Dermine;

hereinafter referred to as “**Belgium**”

on the other part,

hereinafter separately referred to as a “**Party**” and collectively as the “**Parties**”,

WHEREAS:

- (1) Regulation (EU) 2021/241 of the European Parliament and of the Council of 12 February 2021, establishing the Recovery and Resilience Facility (the “**RRF Regulation**”) established the Recovery and Resilience Facility to provide Member States with financial support with a view to achieving the milestones and targets of reforms and investments as set out in their recovery and resilience plans.
- (2) In accordance with Article 18(1) of the RRF Regulation, Belgium submitted to the Commission a recovery and resilience plan (the “**RRP**”). By virtue of Council Implementing Decision of 13 July 2021 on the approval of the assessment of the recovery and resilience plan for Belgium (10161/21; 10161/21 ADD 1) (the “**Council Implementing Decision**”) the Council approved the assessment of the RRP and

determined a financial contribution of EUR 5 923 953 327 linked to the satisfactorily fulfilment of milestones and targets.

- (3) Pursuant to Article 20(6) of the RRF Regulation, the Parties should enter into operational arrangements to further specify the elements mentioned therein.

The Parties have agreed the following:

**1. ARRANGEMENTS AND TIMETABLE FOR MONITORING AND IMPLEMENTATION AND THE RELEVANT INDICATORS RELATING TO THE FULFILMENT OF THE ENVISAGED MILESTONES AND TARGETS**

- 1.1. To facilitate the smooth cooperation and effective implementation of the RRP, the Parties agree to maintain regular exchanges in relation to the implementation of the relevant reforms and investment projects.
- 1.2. Belgium designates the Secretary of State for Recovery and Strategic Investments as the Coordinator (the “**Coordinator**”) to act as the interlocutor of the Commission for the overall implementation of the RRP and of these Operational Arrangements. The Coordinator is responsible at national level for coordinating and monitoring the effective implementation of the measures envisaged and the achievement of the objectives set in the RRP.
- 1.3. The Commission designates the Recovery and Resilience Task Force and the Directorate General for Economic and Financial Affairs as the interlocutors for the monitoring of the implementation of the RRP on behalf of the Commission.
- 1.4. The Coordinator and the Commission shall hold at least quarterly exchanges to take stock of progress on the implementation of the RRP. Such exchanges may take place in person in Belgium’ offices or in Brussels Commission premises. They may also take place virtually or, if both Parties agree, via written form. While maintaining the capacity to hold physical or virtual meetings at short notice, such meetings should ordinarily be planned a minimum of 7 days in advance, with a defined agenda.
- 1.5. The quarterly exchanges to take stock of progress on the implementation of the RRP shall, as a standing item on the agenda, discuss the timeline for payment requests as set out in Section 3. The Coordinator shall assess and inform the Commission of any significant risks to the timeline for the completion of any milestone or targets, notably where that may have implications for the timeline of the associated payment request.
- 1.6. The Coordinator and the Commission may organise meetings on ad hoc topics outside of the quarterly exchange to take stock of progress on the implementation of the RRP. Such ad-hoc meetings are encouraged to discuss investments and reforms in the RRP that may raise specific implementation challenges. These meetings shall take place in a timely manner to identify possible implementation issues. Ad-hoc meetings may also be required to discuss specific implementation issues that cut across multiple

components (e.g. compliance with the Do No Significant Harm principle), to ensure consistency across the RRP.

- 1.7. The Coordinator may nominate specific government entities that are in charge of the actual implementation of specific reforms and investments. As part of the monitoring of the RRP, the Commission may organise technical meetings with such nominated entities to seek further information. The Coordinator shall be in copy of all such contacts and shall be invited to all technical meetings that may take place. These technical meetings may take place on a more regular basis than the quarterly exchanges with the Coordinator, to enable a more frequent monitoring of the reforms and investments included under each component of the RRP and to identify possible implementation issues in advance of the quarterly exchanges. An overview of the technical meetings that are taking place will be discussed in the quarterly meetings with the Coordinator.
- 1.8. While respecting internal processes and timing, and in order to facilitate the implementation of the RRP and the assessment of payment requests, the Coordinator or nominated specific government entities are encouraged to share with the Commission any relevant information on the progress in the implementation of the RRP, in order to discuss in a timely manner on its alignment with the relevant provisions in the Council Implementing Decision.
- 1.9. Annex I to these Operational Arrangements further specifies the milestones, targets and relevant indicators laid down in the Council Implementing Decision to measure the progress towards the achievement of the reforms and investment projects of the RRP.
- 1.10. Annex II to these Operational Arrangements further specifies the arrangements and timetable for monitoring laid down in the Council Implementing Decision.
- 1.11. In accordance with Article 27 of the RRF Regulation, Belgium shall report in the context of the European Semester on the progress made in the achievement of its RRP, including these Operational Arrangements and on the common indicators set out in accordance with Article 29(4) of the RRF Regulation. Such reporting shall take place each year, by 30 April and 15 October on the progress made in the achievement of the RRP, including these Operational Arrangements, and by 28 February and 31 August on those common indicators. Annexes I and II specify the arrangements for the reporting linked to these Operational Arrangements.
- 1.12. In order to ensure effective coordination and complementarity of Union funding in accordance with Article 28 of the RRF Regulation, Belgium shall include in such reporting any investment or reform supported under its RRP that has or is receiving funding from any other Union programme and the relevant amount. In order to establish a mechanism of coordination, the Commission and Belgium shall discuss as relevant the coordination and complementarity with other Union funding during their quarterly exchanges.

1.13. In the context of Article 28 of the RRF Regulation, the Commission and Belgium agree to jointly organise an annual event with the participation of those responsible for implementing the RRP and other relevant stakeholders, to discuss complementarity, synergy, coherence and consistency between the implementation of the RRP and the other Union programmes. In addition, this event may serve as a horizontal platform to exchange views on the state of implementation of the RRP in view of ensuring close cooperation between all actors involved.

## **2. ARRANGEMENTS FOR ACCESS TO DATA**

2.1. The arrangements that Belgium has proposed in order to ensure full access by the Commission to relevant underlying data are set out in the Council Implementing Decision.

2.2. Annex I specifies the minimum information (i.e. verification mechanisms) that supports the due justification of the request for payment. Belgium shall send this information to the Commission together with the payment request. Where relevant, the Commission may request samples of the evidence. In accordance with Article 24(3) of the RRF Regulation, the satisfactory fulfilment of milestones and targets shall presuppose that measures related to previously satisfactorily fulfilled milestones and targets have not been reversed by the Member State. Belgium shall notify the Commission of any change in the documentation identified in the verification mechanism in Annex I on which that assessment was made, which is of a material nature to affect such assessment or the assessment of future milestones and targets.

2.3. Additionally, Belgium shall ensure that, upon request, the Commission has full access to the underlying relevant data that supports the due justification of the request for payment, both for the assessment of the request for payment in accordance with Article 24(3) of the RRF Regulation and for audit and control purposes in accordance with Article 22(2)(e) of the RRF Regulation. This information will be provided to the Commission by the Coordinator.

## **3. TIMELINE FOR PAYMENT REQUESTS**

In accordance with Article 24 of the RRF Regulation, upon completion of the relevant agreed milestones and targets indicated in the RRP, Belgium shall submit a duly justified request for payment of the financial contribution. The relevant milestones and targets for each instalment are contained in the Council Implementing Decision. The indicative timeline for such payment requests is the following:

## Financial Contribution

Payment Request for the First Instalment	EUR 973 994 000	Q4 2022 (15/12)
Payment Request for the Second Instalment	EUR 973 994 000	Q2 2023 (30/06)
Payment Request for the Third Instalment	EUR 735 632 000	Q2 2023 (30/06)
Payment Request for the Fourth Instalment	EUR 735 632 000	Q4 2023 (15/12)
Payment Request for the Fifth Instalment	EUR 540.230.000	Q2 2024 (30/06)
Payment Request for the Sixth Instalment	EUR 540.230.000	Q4 2024 (15/12)
Payment Request for the Seventh Instalment	EUR 459.770.000	Q2 2025 (30/06)
Payment Request for the Eighth Instalment	EUR 459.770.000	Q4 2025 (15/12)
Payment Request for the Ninth Instalment	EUR 252.874.000	Q2 2026 (30/05)
Payment Request for the Tenth Instalment	EUR 251.827.327	Q3 2026 (30/08)

## 4. AMENDMENTS

The Operational Arrangements may be modified by mutual consent between the Parties. Such amendments may take place by an exchange of letters. The Parties consent that the entities designated as the Coordinator and the interlocutors for the monitoring of the implementation of the RRP on behalf of the Commission in Clause 1.2 and 1.3 respectively may be amended by notification.

## Annex I

### Milestones, targets and related indicators – non-repayable support

Seq. Nb	Related Measure	M/T	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Timeline for completion		Responsibility for reporting and implementation	Further specification (where necessary)	Verification mechanism	Description of milestone/target
					Unit of measure	Baseline	Goal	Quarter	Year				
1	Improved energy grant scheme in the Flemish region (R-1.01)	M	Improved energy grant schemes in Flanders	Publication in Official journal				Q1	2022	Flemish Energy and Climate Agency (VEKA)		Copy of link to legal acts and regulations published in Moniteur Belge / Belgisch Staatsblad for each of the four schemes, and a reference to the relevant provision in each text indicating the date of entry into force.  Summary document duly justifying how the milestone (including the relevant elements of the milestone, as listed in the description of milestone and of the corresponding measure in the CID annex) was satisfactorily fulfilled.	Adoption by the Flemish Government / Parliament of new regulation: revising energy label scheme, revising the grant schemes for residential and private renovations, introducing grants for demolition-reconstruction for private housing and introducing the smart control and home battery grants; together providing more efficient incentives to accelerate private energy efficiency investments.
2	Improved energy grant scheme of the Brussels-Capital region (R-1.02)	M	Entry into force of new regulation on energy grant schemes in Brussels	Provision in the law indicating the entry into force of the new regulation				Q1	2022	Brussels Environment + Urban.brussels		Copy of and link to the legal act published in Moniteur Belge / Belgisch Staatsblad, and a reference to the relevant provision indicating the date of entry into force.  Summary document duly justifying how the milestone (including the relevant elements of the milestone, as listed in the description of milestone and of the corresponding measure in the CID annex) was satisfactorily fulfilled.	Entry into force of regulation to reform the energy grant schemes for residential and private renovations in Brussels-Capital Region
3	Improved energy grant scheme of the German-Community (R-1.03)	M	Entry into force of new regulation on energy grant schemes in the German-speaking Community.	Provision in the law indicating the entry into force of the new regulation				Q1	2022	Ministère de la Communauté Germanophone		Copy of link of legal acts in Moniteur Belge / Belgisch Staatsblad, and a reference to the relevant provisions indicating the date of entry into force.  Summary document duly justifying how the milestone (including the relevant elements of the milestone, as listed in the description of milestone and of the corresponding measure in the CID annex) was satisfactorily fulfilled.	Entry into force of regulation to reform the energy grant schemes for residential and private renovations in the German Community.
4	Renovation of public buildings (I-1.06)	M	Entry into force of new regulation on energy grant schemes in Wallonia	Provision in the legislation indicating the entry into force of the new regulation				Q1	2022	SPW TLPE		Copy of link to legal acts published in Moniteur Belge / Belgisch Staatsblad, and a reference to the relevant provisions indicating the date of entry into force.  Summary document duly justifying how the milestone (including the relevant elements of the milestone, as listed in the description of milestone and of the corresponding measure in the CID annex) was satisfactorily fulfilled.	Entry into force of the regulation for the reform of the Ureba scheme for public building renovations in Wallonia.
5	Renovation of private and social housing (I-1A)	T	Renovation of private		Dwellings	0	64140	Q2	2023	VLA: VEKA Flemish Energy and Climate	For the purposes of the indicator, the concept of	Summary document duly justifying how the target (including all the relevant elements, as listed in the description of target and of the corresponding measure in	Renovation of 64140 residential dwellings (social housing and private) with the support of

Seq. Nb	Related Measure	M/T	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Timeline for completion		Responsibility for reporting and implementation	Further specification (where necessary)	Verification mechanism	Description of milestone/target
					Unit of measure	Baseline	Goal	Quarter	Year				
			residential and social housing							Agency and VMSW (Flemish Agency for Social Housing)  Brussels-Capital Region: SLRB-BGHM and Brussels Environment;  DG: Ministère de la Communauté Germanophone	housing shall be compatible with the Eurostat definition ('A dwelling is a room or suite of rooms - including its accessories, lobbies and corridors - in a permanent building or a structurally separated part of a building which, by the way it has been built, rebuilt or converted, is designated for housing by one private household all year round')	the CID annex, including its sub-measures) was satisfactorily fulfilled.  The summary document shall notably cover: 1. Statistics and breakdown of number and categories (private, social housing) of dwellings renovated per sub-measure, including overview of their location (e.g. region or province). 2. For sub-measures R-1.03, I-1.01, I-1.02, I-1.03, a summary justification on the primary energy savings achieved. For the demolition–reconstruction scheme under sub-measure R-1.01 referring to intervention field 25ter, a summary justification that new buildings meet the requirement of primary energy demand that is at least 20 % lower than the near zero energy building requirement. The justification shall indicate the methodology used to compute the average reduction in primary energy demand.  As an annex 1, for each sub-measure R-1.01, R-1.03, I-1.01, I-1.02, I-1.03, copies of the detailed methodologies (including energy reduction simulations) used to justify and calculate the energy savings per sub-measure, including underlying assumptions. Where relevant, the eligibility criteria to the subsidy.  As an annex 2, a spreadsheet listing the references to the primary evidence, each with a unique identifier, and grouped by sub-measure in line with the description of the investment in the CID annex under I-1A (R1.01, R1.02, R1.03, I-1.01, I-1.02, I-1.03). To verify the renovation of 64 140 dwellings of which 6% under climate tagging categories 25bis (sub-measures R-1.03, I-1.01, I-1.02, I-1.03) or 25ter (demolition–reconstruction scheme under sub-measure R-1.01), the spreadsheet shall include the relevant references to the following evidence on the (i) completion of the works and (ii) the energy performance for each sub-measure:  (i)The completion of work shall be demonstrated by:  For social housing projects I1.01, I1.02, I1.03, a certificate of completion issued in line with national legislation, like a provisional report (" <i>procès-verbal de réception provisoire/ proces-verbaal van voorlopige oplevering</i> ") signed by the contractor and the competent authority evidencing the completion of the works	energy grants achieving primary energy demand reduction in line with climate tagging requirements.

Seq. Nb	Related Measure	M/T	Name	Qualitative indicators (for milestones)	Quantitative indicators (for targets)			Timeline for completion		Responsibility for reporting and implementation	Further specification (where necessary)	Verification mechanism	Description of milestone/target

At minimum data in the database should cover the following elements: (a) Number of new cases, (b) Number of cases closed, (c) Pending cases, (d) Average lead time, for both civil, business and criminal cases.	The published data shall cover the number of new cases, the number of cases closed, pending cases and the average lead time, for both civil, business and criminal cases.
60	Digitalisation SPF (I-2.05) (Sub-measure 1: Digital transformation of Justice)	M	New Case Management System for seven entities	A new case management system shall be developed and deployed for seven entities				Q4	2025	SPF Justice		Summary document duly justifying how the milestone (including the relevant elements of the milestone, as listed in the description of milestone and of the corresponding measure in the CID annex) was satisfactorily fulfilled.  This document shall include as an annex the following documentary evidence: 1. Copy of the documents containing the technical specifications of the project as defined by the competent administration and approved by the competent Ministry. 2. Implementation report signed by the contractor and the contracting authority confirming that a new case management system has been developed for seven entities. 3. The list of the seven entities where the new case management system has been deployed. 4. Copy of the adopted decision selecting the seven entities where the new case management system has been deployed, also evidencing the consultation of the relevant bodies mentioned in the description of the milestone.	A new case management system shall be developed and deployed for seven entities that use an outdated file management system, to make the judicial system more efficient by focusing on far-reaching digitization, which shall allow to process files faster and in larger quantities than today. The choice of entities shall be made in consultation with the College of Courts and Tribunals, the College of the Public Ministry, the College of the Court of Cassation and the ICT Steering Committee, but priority shall in principle be given to entities that are not included in the Mammouth at Central Hosting (MaCH) Phase 2 contract.

61	Digitalisation SPF (I-2.05) (Su-bmeasure 10: Single Digital Gateway)	M	The front-end interface is developed	A Fully Only Once-compliant front end has been developed, tested and validated for 10 domains of activities.				Q4	2023	Agency for the administrative simplification		Summary document duly justifying how the milestone (including the relevant elements of the milestone, as listed in the description of milestone and of the corresponding measure in the CID annex) was satisfactorily fulfilled.  This document shall include as an annex the following documentary evidence: 1. Copy of the documents containing the technical specifications of the project as defined by the competent administration and approved by the competent Ministry. 2. Implementation report signed by the contractor and the contracting authority confirming that a Fully Only Once-compliant front end has been developed, tested and validated for 10 domains (i.e., civil register, population register, social security (employees), social security (employers), motor vehicle register, professional qualifications, legal entities, starting a business, modifying a business, closing a business), in particular that the system: (a) ensures compliance with eIDAS (Electronic Identification, Authentication and Trust Services) regulation; (b) is fully user centric by fully applying the "no wrong door" principle.	A Fully Only Once-compliant front end has been developed, tested and validated for 10 domains (i.e., civil register, population register, social security (employees), social security (employers), motor vehicle register, professional qualifications, legal entities, starting a business, modifying a business, closing a business). The system shall ensure compliance with eIDAS (Electronic Identification, Authentication and Trust Services) regulation and shall be fully user centric by fully applying the "no wrong door" principle. The "no wrong door" principle in this context means that the end user (citizen or entrepreneur) shall be able to get in touch with the assistance services no matter his/her entrance point, whether it shall be "your Europe", or "Belgium.be", a regional portal site, a local entrance point or any public service, no matter the device he/she uses (such as mobile phone, tablet, laptop) and no matter the subject of his/her question. The administrative logic behind the entrance point, at the back office level, shall make sure that the question of the end user shall arrive at the right desk without the end user having to wonder which administration is responsible for which topic.

Report on the (desktop) case study within the project for the complete (cradle to grave) decommissioning of a particular component (such as a steam generator) showing that the case study has been finalised.	(desktop) case study shall be finalised within the project for the complete (cradle to grave) decommissioning of a particular component (such as a steam generator) of the Belgian nuclear power plants.
186	Strengthen R&D (I-5.11)	M	Award of public contracts for R&D and infrastructure projects	Notification of the award projects				Q4	2022	VLAIO (Flanders Agency for Innovation and Entrepreneurship)	For the purposes of this operational arrangement, for the projects awarded before the adoption of the CID, extracts of the terms of reference which include eligibility criteria that ensure that the selected projects comply with the 'Do no significant harm' Technical Guidance (2021/C58/01) as specified in the CID annex, should be read as including additional documentation provided after the formal contract award notification to candidates such as agreements entered into between the authorities and the candidates	Summary document duly justifying how the milestone (including the relevant elements of the milestone, as listed in the description of milestone and of the corresponding measure in the CID annex) was satisfactorily fulfilled.  This document shall include as an annex the following documentary evidence: 1. Spreadsheet listing the 220 selected projects including for each one: the unique identifier, the name of the project (where applicable), the beneficiary, the amount committed to each beneficiary (also evidencing that EUR 252 000 000 has been committed), a brief description of the project, including the name of the programme under which it was selected, reference of the notified contract award and the indication of the reference of the call in which the project was selected or indication of whether the project was selected based on an application under the general grant scheme. For each awarded project with activities under the EU ETS, the location, the Installation ID/Aircraft Operator ID in the European Union Transaction Log (EUTL) and justification that the projected level of GHG emissions per unit of product will be significantly lower than the relevant benchmarks.  For projects selected via calls for proposals: 2. Copy of published terms of reference for the competitive calls for proposals (link to the call, specification of the period when call was open for applicants and the technical specifications of the call). 3. Extracts from the terms of reference for the call for proposals that ensure compliance with the 'Do no significant harm' Technical Guidance (2021/C58/01) as specified in the CID annex.  For projects selected via general grant schemes: 4. Copy of the published grant schemes conditions	Notification, by the 'Fonds Wetenschappelijk Onderzoek' (FWO), VLAIO and the 'Departement Economie, Wetenschap en Innovatie' (EWI), of the award of 220 projects to the successful candidates following the call for proposals, with terms of reference including eligibility criteria that ensure that the selected projects comply with the 'Do no significant harm' Technical Guidance (2021/C58/01) through the use of an exclusion list and the requirement of compliance with the relevant EU and national environmental legislation. For projects awarded through grant schemes that do not work with calls for projects, compliance with the technical guidelines "do no significant harm" (2021/C58/01) is also enforced through an eligibility criterion based on the same exclusion list and the requirement of compliance with relevant EU and national environmental legislation.
